## Aim:

Write a program to demonstrate constructor class

## Source Code:

**Student.java**

```java
class Student
{
    int num;
    String name;
    void display()
    {
        System.out.println(num+" "+name);
    }
    public static void main(String args[])
    {
        Student s1 = new Student();
        Student s2 = new Student();
        s1.display();
        s2.display();
    }
}
```

## Execution Results - All test cases have succeeded!

| Test Case - 1 |
|---|
| User Output |
| 0 null |
| 0 null |
